

Tipton County Public Library

Photo Release Policy

Photos and images of minors (children under 18 years of age) may be included in print and Web publications and video productions only when the following conditions are met:

- No address or phone number is publicized; and
- The parent or guardian signs a release.

If no parental release form is available, then photos and images of minors may only be included in print, digital, social media, and video productions when the minors' faces are turned away from the camera and not discernible.

The possession and ownership of all photos and videos will remain the property of the Tipton County Public Library.

The library will not release in print the names of individuals who appear in photos or videos taken at the library unless we obtain permission to do so.

NOTE: A Release is not required for photos or video to be taken by Tipton County Public Library staff at library events and programs. Attendance at library programs and events constitutes consent to be photographed.
